Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Pursuant to a second preliminary amendment (filed 1/9/06), claims 45-49 have been amended, and claims 72-74 cancelled. Claims 1-71 remain pending.

Applicants' election of Group 6 (claims 69-71, drawn to a method of using the compounds of Group 2) is acknowledged. However, applicants have not elected species, as required by the previous Office action (mailed 7/6/005). As such, applicants are held to be "non-responsive" to that Office action. The previous election requirement is restated below, with ~~one~~ additional species election requirement.

. . . .

Applicants are required under 35 U.S.C. §121 to elect disclosed species (as follows) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable:

- a) a specific and fully defined compound which is to be used with the claimed method and which falls within the scope of claim 1 or 44;
- b) the contents of a "pharmaceutically acceptable vehicle";
- c) one of the following: (i) a method of treating a tumor without also imaging the tumor, (ii) a method of imaging a tumor without also treating the tumor, or (iii) a two step method which comprises both imaging the tumor and treating the tumor;
- d) the anatomical location of the tumor (see specification, page 26, paragraph 4).

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a generic claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Serial No. 10/777,820
Art Unit 1654

-3-

Upon allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP 809.02(a).

Should applicant traverse on the ground that the species are not patentable distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. §103 of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Lukton whose telephone number is 571-272-0952. The examiner can normally be reached Monday-Friday from 9:30 to 6:00.
